

# The NIH Undergraduate Scholarship Program

The National Institutes of Health (NIH) Undergraduate Scholarship Program (UGSP) offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral, and social science health-related research. The program offers:

- Scholarship support
- Paid research training at the NIH during the summer
- Paid employment and training at the NIH after graduation

## SCHOLARSHIP SUPPORT

The NIH UGSP will pay up to \$20,000 per academic year in tuition, educational expenses, and reasonable living expenses to scholarship recipients. Scholarships are awarded for 1 year, and can be renewed up to 4 years.

## RESEARCH TRAINING AT THE NIH

For each full or partial scholarship year, you are committed to two NIH service obligations. The obligations are actually benefits of the UGSP, providing you with invaluable research training and experience at the NIH.

1. 10-week Summer Laboratory Experience. After each year of scholarship support, you will train for 10 weeks as a paid summer research employee in an NIH research laboratory. This employment occurs after the receipt of the scholarship award. Each scholar will work directly with an NIH Principle Investigator or an NIH postdoctoral fellow, who will serve as mentors.
2. Employment at the NIH after Graduation. After graduation, you will continue your training as a full-time employee in an NIH research laboratory. You must serve 1 year of full-time employment for each year of scholarship.
3. The UGSP does not provide housing for the service obligations.

## ELIGIBILITY REQUIREMENTS

You must meet all of these requirements in order to be eligible for admission into the UGSP. Please take a moment to use our [Eligibility Wizard](#).

- U.S.A. citizen or U.S.A. permanent resident
- Enrolled or accepted for enrollment as a full-time student at an accredited 4-year undergraduate institution located in the United States of America
