

USB Table of Contents

Yellow: From an outside source that has still not gotten back to me

Blue: Internet resources that still need to be inserted into the file. I have already gone through all the internet resources documents and checked the links but I leave them all highlighted until the end so that I can remember where they go, and because there is always the possibility of things being added as I hear from resources.)

Green: something that has not been confirmed by an outside source but which I think we can still use this year, or something from Skills or another source that I do not.
