

Vertex Physician Investigators

A unique opportunity to develop leaders of the future

Vertex: Our Background

At Vertex, we are relentless in the pursuit of transformative therapies. Bringing together the brightest minds, investing in science and taking smart risks, we strike at the core of serious diseases. Vertex invests in scientific innovation to create transformative medicines for people with serious diseases with a focus on specialty markets. Over the last ten years, Vertex has launched five medicines discovered in our own labs and has in active clinical development candidate medicines for CF, sickle cell disease and beta-thalassemia (CRISPR), type 1 diabetes (cell therapy), APOL1 mediated kidney disease, and pain. Vertex is a global biotechnology company with research sites in Boston, San Diego, and Oxford, UK.

What is the Vertex Physician-Investigator Program?

The **Vertex Physician Investigator (VPI) Program** offers exceptional early career physicians, with a diversity of backgrounds and experiences, full-time employment commencing with a unique two-year, immersive experience in which they complete four customized rotations. The VPI program accelerates transition to industry through broad exposure to the drug development process and future leadership opportunities. VPIs have the opportunity to be mentored by Vertex and industry leadership.

Application for the Class starting in 2023 now open!
