

Vertex Intern Program

Vertex is a global biotechnology company that invests in scientific innovation to create transformative medicines for people with serious diseases. Vertex has a robust pipeline of investigational small molecule, cell and genetic therapies across multiple serious diseases where it has deep insight into causal human biology.

Internship Program

Each year we have internship opportunities across all functional areas. A Vertex Intern experience includes:

- A challenging and meaningful 10-week assignment beginning; *end of May/early June - ending the first week of August*
- Participation in professional development workshops and networking events with Vertex employees
- An end-of-summer capstone event that will capture your learnings and share your experience with the broader company

Minimum Qualifications:

- Must be enrolled in an undergraduate/advanced degree program if graduating in Spring of current academic year
- Minimum 3.0 GPA preferred

To apply, check out our internship positions posted on the Vertex website: www.vrtx.com. Type "Internship" in the keyword search to view openings

Recognition

Vertex has continually been recognized as one of the industry's top places to work. In addition, Vertex employees have received a variety of awards for their innovative work at Vertex and for their commitment to local communities.

Functional Areas

- Research
