

What's Happening @ BSCP

July 2023 Edition

Upcoming Events

Skills Workshops for College and High School Students + Internship Fair

Harvard Medical School

Saturday, November 18, 2023

Application will be available in September

These workshops provide students with information and guidance in areas of academic and workforce skills. Special session for parents/caregivers will also take place. Co-Sponsored with Harvard Medical School

New England Science Symposium Virtual Abstract Feedback Session

Saturday, December 3, 2023 (11 AM to 12:30 PM EST)

Registration will be available in September.

This is a virtual prep session designed for individuals who wish to receive feedback on their abstract from advisors and peers before submitting it. The meeting will be set-up in small groups (5-7 individuals) where students will give 2-4-minute elevator pitch to the group.

Participating in this session is not required, nor does it guarantee acceptance.

Co-Sponsored with Harvard Medical School

Laptop Fund

BSCP Educational Fund for Laptops - Thanks to BSCP partner company, Cytiva, a limited number of refurbished laptops are available for BSCP students who are in need of a personal computer due to financial hardship. Click [here](#) to apply online.

Being a BSCP Student, gives you access to our partners! We will frequently post jobs as well as internships, co-ops, scholarships and exclusive opportunities sent to us directly by our partners in biotech and academia! If you happen to apply to any of these listings, always mention BSCP's name and also let us know by emailing Pinar Kilicci-Kret (pinar_kilicci-kret@hms.harvard.edu)

- **The Gates Scholarship (TGS)** is a highly selective, last-dollar scholarship for outstanding, minority, high school seniors from low-income households. Each year, the scholarship is awarded to exceptional student leaders, with the intent of helping them realize their maximum potential. Selected Scholars will receive funding for the full cost of attendance to earn a bachelor's degree, that is not already covered by other financial aid and the expected family contribution, as determined by the Free Application for Federal Student Aid (FAFSA), or the methodology used by a Scholar's college or university. Click [here](#) for more information.
- **Federation of American Societies for Experimental Biology (FASEB) Science Research Conferences (SRC)** - FASEB's SRCs cover a range of topics, including biology of cancer and aging, cell biology, cell signaling and endocrinology, cellular metabolism and nutrition, clinical and translational medicine, development and reproductive biology, from tissues to organ systems, genetics and genomics, microbiology and immunology, molecular and structural biology, and neuroscience. Click [here](#) to view all upcoming events.
- **Yale School of Medicine** - A postdoc position is available in the laboratory of Dr. Ric Pierce. Research in the Pierce group focuses on blood vessel dysfunction in the setting of acute critical illness. Our group exists to understand how to identify and treat blood vessel dysfunction, with the ultimate goal to reduce death and disability in patients. Seeking a highly self-motivated applicants with competence in standard cellular and molecular biology techniques. Experience with culturing primary human endothelial cells, such as HUVEC, is required. Click [here](#) for more information.
- **Mass General Hospital** - MGH Youth Neurology Education and Research Program INSPIRE Speaker Series is back! The speaker series runs throughout the summer (once weekly), and features leading neurologists and neuroscientists. Click [here](#) to sign up for more information. The series starts July 10th and runs through August.
- **NIH PREP (Post-baccalaureate Research Education Program) at UMass-Amherst** is seeking applicants. Admissions are rolling for the 2023-2024 cohort. PREP is an NIH-funded post-baccalaureate training program that prepares students with a bachelor's degree in the physical or life sciences for doctoral study in the biomedical and biobehavioral sciences. To be eligible, applicants must be US citizens or Permanent Residents and have completed their undergraduate studies no more than 36 months prior to matriculation into the PREP. There is no application fee. Click [here](#) to learn more.
- **Vertex Opportunities** - [Exciting Opportunities Available at Vertex!](#) Vertex is committed to providing a higher internal level of visibility to BSCP applicants. In addition to listing BSCP on your resume, select the BSCP source code when asked how you heard about the opportunity.

Resources

- **Regeneron Opportunities** Jobs are now available! Please go to our careers site and apply to what best matches your experience and interest. Please click [here](#) for more information and available opportunities.
- **Takeda Pharmaceuticals** - find career opportunities available with Takeda [here](#)!
- **National Institute of Mental Health** - Postdoctoral Position is available with the Intramural Research Program at National Institute of Mental Health. The PET (positron emission tomography) Radiopharmaceutical Sciences Section of the Molecular Imaging Branch at the National Institute of Mental Health (NIMH) Intramural Research Program in Bethesda, Maryland seeks applications for a postdoctoral position. Our lab develops a) novel radiotracers for brain imaging with PET and b) radiochemistry methodology in support of novel PET radiotracer development. Click [here](#) to learn more.
- **National Institute of Child Health and Human Development (NICHD)** - The Intramural Research Program (IRP) of the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) is recruiting a clinical tenure-track scientist/ investigator who will establish an independent translational research program integrating both basic and clinical research. We are seeking an outstanding physician-scientist who will apply innovative and rigorous approaches to the understanding of a disease process within the scope of the NICHD mission. Click [here](#) for more information.
- **National Institutes of Health (NIH)** - An Imaging Scientist position is available in the Laboratory of Behavioral Neuroscience (LBN) within the Intramural Research Program of the National Institute on Aging (NIA), National Institutes of Health (NIH) in Baltimore, Maryland. This is a full-time position for a scientist or engineer with a background and interest in working with structural and functional MRI neuroimaging data. The position will involve neuroimaging data processing, analysis, transfer, and database management for the Baltimore Longitudinal Study of Aging (BLSA). Click [here](#) to find out more. The application deadline is July 31st.
- **National Cancer Institute (NCI)** - Cancer Prevention Fellowship Program (CPFP) is now accepting applications for Cancer Prevention Fellows. This unique postdoctoral training opportunity is perfect for researchers with an interest in and adjacent to the field of cancer prevention. Fellows pursue their research interests with world-class training and mentorship. Applications will be accepted through August 1, 2023. Click [here](#) for more information.
